SIG516[®]

NATURAL EVOLUTION.

Modern warriors needed an AR-15 weapon that could overcome the harshest tactical environments. So we replaced the traditional gas impingement system with a cleaner, easier-to-maintain, short-stroke piston. Then we added true ambidextrous controls and refined everything from barrel to grip. The result is the ruggedly dependable SIG516.

STRAIGHT SHOOTER.

An eye for detail and unwillingness to compromise makes Max Michel, Jr. one of the most dominant competitive shooters ever. He is a four-time World Speed Shooting Champion and in 2010 became the first shooter to win all 8 Area Championships within the same year. Max brings the same passion and dedication to his role as Captain of the SIG SAUER® Shooting Team and Manager of Competitive Shooting Activities. With real-world insight and a relentless focus on quality, Max is helping SIG SAUER build some of the world's finest sport pistols.

UNMATCHED INTERCHANGEABILITY. ENDLESS PERFORMANCE POSSIBILITIES.

The Xseries has dominated international competition circuits because of its superb accuracy, utter reliability, and unmatched engineering. Now, the Xseries brings enhanced ergonomics and seamless modularity to the gold standard of precision pistol design.

The SIG SAUER Academy™ is internationally recognized for the use of superior training techniques and unmatched results. Armed professionals and responsible citizens continuously choose to train at the SIG SAUER Academy for all their firearms, tactical and related training needs.

NO MATTER WHAT YOU SHOOT, WE'LL MAKE YOU A BETTER SHOOTER. GUARANTEED.

SIG SAUER ACADEMY COURSES

From executive protection to active shooter response, from close quarters combat and basic marksmanship to long-range sniper training, the SIG SAUER Academy has provided the highest quality firearms and tactics training available anywhere in the United States for more than two decades. Located on over 140 acres in Epping, NH—only an hour from Boston, MA—our facility features state-of-the-art indoor and outdoor ranges, tactical training areas, urban environments, a shoot house, a maritime training area, and a force-on-force village. The SIG SAUER Academy offers a comprehensive arsenal of more than 60 courses for the armed professional and responsible citizen.

SHOOTING DEVELOPMENT

From first-time shooter to the range veteran, the SIG SAUER Academy progressive shooting development courses offer a logical shooting evolution designed to build a shooter. Pistol, rifle and shotgun courses are taught in basic, intermediate and advanced levels that follow a simple and easily reproducible experience utilizing best practices.

SPECIALITY TRAINING

Each specialty course has a specific tactical objective. These courses focus on a specialty discipline or deadly scenario, and incorporate training methods designed to achieve nothing short of success and first place wins. Second place is not an option. Students will be confronted with unfamiliar and uncomfortable situations in order to familiarize themselves with such eventualities and learn to prevail.

INSTRUCTOR DEVELOPMENT

The SIG SAUER Academy takes special care in preparing knowledgeable men and women to become effective firearms instructors for students of all levels. It takes more than subject mastery to be a good instructor. Proven techniques successfully transfer essential skills and knowledge from instructor to student in less time. Instructor candidates practice teaching techniques acquired with each other and are rigorously evaluated for classroom and range skills mastery.

ARMORER CERTIFICATION

Proper and routine weapon maintenance and inspection are essential to ensure maximum reliability. Factory armorer courses at SIG SAUER Academy certify agency armorers or individuals to maintain, inspect, service, and repair selected SIG SAUER® firearms while preserving the factory warranty. Upon successful completion, armorers will fully understand each firearm and be factory-certified for a period of three years.

For individual course descriptions, class schedules, and more information, visit www.sigsaueracademy.com.
